

1. Amazon Firestick & Android TV Setup

The fastest, highest-quality way to watch on your big screen

MOST POPULAR

⚡ IN THE DOWNLOADER APP, ENTER NUMERIC CODE:

7 5 8 6 2 3 4

Official APK Download URL:
<https://tv.turnertechsce.com/hackertv.apk>
✓ Hardware ExoPlayer • 4K UHD

STEP A Install the "Downloader" App: From your Firestick Home Screen, go to **Find** (🔍) → **Search**. Type **Downloader** and install the orange **Downloader** app (by AFTVnews).

STEP B Enable "Install Unknown Apps" (First-Time Firestick Setup Only):
1. Go to Firestick **Settings** (⚙️) → **My Fire TV** → **About**.
2. Highlight **Fire TV Stick** and click the middle select button **7 times quickly** until it says "You are now a developer."
3. Press the **Back** button once → Click **Developer Options**.
4. Turn **ON** (or open **Install Unknown Apps** and turn **ON** for **Downloader**).

STEP C Download Hacker TV & Sign In:
1. Open the orange **Downloader** app.
2. In the **URL or Search Term** box, enter code **7586234** and click **Go**.
3. Wait a few seconds for the download to finish, then click **Install** → **Open**.
4. Enter your **Username** and **Password** (keep *Remember credentials* checked so you stay signed in automatically — no server URL is needed!).
5. Click **INITIALIZE STREAM** to unlock your Live TV, PPV Sports, Movies, and Series!

💡 **Pro Tip:** Hold down the **Home button** on your Fire Stick remote and select **Apps** to move Hacker TV to your top favorite apps bar for 1-click access!

2. Watch Instantly on Web Browser (No Download Needed)

Works on iPhone, iPad, Android, Mac, Windows PC & Smart TV Browsers

ZERO INSTALL

1 Open your browser (**Safari, Chrome, or Edge**) and visit: <https://tv.turnertechsce.com>

2 Enter your **Username** and **Password** (check *Remember credentials*) → Tap **INITIALIZE STREAM**.

📱 iPhone & iPad (Safari)

1. Tap the **Share button** (🔗) at bottom.
2. Scroll down & tap "**Add to Home Screen**".
3. Tap **Add**. Launches as a full-screen app!

📱 Android Phones & Tablets (Chrome)

1. Tap the **3-dot menu** (⋮) top-right.
2. Tap "**Install app**" or "**Add to Home screen**".
3. Hacker TV icon is added to your app drawer!

3. Apple TV (4K & HD) Setup

Two easy methods: 1-Tap AirPlay or Dedicated Apple TV App

APPLE TV

OPT A 1-Tap AirPlay (Fastest):

1. Open <https://tv.turnertechsce.com> on your iPhone, iPad, or Mac.
2. Play any live channel, movie, or series.
3. Tap the **AirPlay** button on the video player and choose your **Apple TV**!

OPT B Dedicated App (Smarters / IPTVX):

1. Open **App Store** on Apple TV → Install **Smarters Player Lite**, **IPTVX**, or **UHF**.
2. Choose "**Xtream Codes API**" and enter:
 - Server: <http://proxpanel.cc:8080>
 - Username: (Your Hacker TV Username)
 - Password: (Your Hacker TV Password)

PC & Mac Keyboard Controls

Spacebar	Play / Pause stream instantly
→ Right Arrow	Skip forward 10 seconds (VOD)
← Left Arrow	Rewind 10 seconds (VOD)
F	Toggle Fullscreen Mode
G	Open Electronic Program Guide (EPG)

Top Hacker TV Features

- **Live Sports Hub:** 1-click filters for UFC, NFL, NBA, MLB, Soccer & Boxing.
- **Interactive TV Guide:** See what's on now & up next with live progress bars.
- **Past Channels:** Quick-recall your last 3 watched live channels or games.
- **Auto Updates:** Fire Stick updates automatically prompt on launch.

⚡ Quick Troubleshooting & Pro Tips

- **Stream buffering?** Connect your Firestick or TV to 5 GHz Wi-Fi or Ethernet for 4K sports.
- **Sound but no video?** Press the Back button once and re-select the channel to refresh the video hardware decoder.
- **Updates:** When Hacker TV prompts with "*Update Available*", simply click **Install Update**. Your credentials and favorites will stay saved automatically!
